

Identification Required For Travel

Details

Domestic Travel: All domestic passengers 18 years of age or older are required to present one form of government issued photo identification (such as a valid driver's license).

International Travel: All international passengers regardless of age must present a government issued, non-expired, U.S. passport upon flight check-in and for U.S. Customs re-entry after air, land or sea travel.

For more information regarding proper identification requirements, please consult your Travel Professional or visit the State Department's consular website at www.travel.state.gov Department of Homeland Security's website at www.dhs.gov or the U.S.

Airlines may require special or additional documentation for children traveling without their legal guardian beyond what is mandated by the destination country. We encourage you to contact your air carrier for clarification.

It is the traveler's responsibility to provide the correct documents and failure to do so may result in being denied boarding for the flight. Regrettably, we are unable to refund unused flights, hotel, or features because of denied boarding situations.

Passports are required to travel internationally. Most countries require your passport to be valid for AT LEAST 6 months past your travel dates. If your passport will expire before the required time, you must renew it immediately.

US Permanent Residents - Guests who are legal permanent residents of the US must present a valid original Permanent Resident Card. Photocopies are not acceptable.
